Item specifics

Condition: **Pre-owned** :

Seller Notes: “Watch has a chip that has fallen off the face (dial) - watch is used - also the luminescent dot at the top of the bezel fell out. Watch has a new bezel that we purchased from the watch repair company we sent it to but it does not have the luminescent dot. The new bezel insert is all black in color. Watch needs a new dial (face). Could be purchased from Steinhart but they no longer exist here in the U.S. The watch runs but since it has run down (while at the watch repair place),it stopped a couple of times and then takes off again. I think it could use a watch winder automatic self winder). MAY ALSO NEED REPAIR”

Brand: Steinhart
Gender: Men's
Style: Sport

Features: Date, Diver Watch/Water Resistant over 100 m
Band Material: Stainless Steel

STEINHART GMT-Ocean. THIS WATCH NEEDS A NEW DIAL (CHIPPED) and the small luminescent dot at the 12 o'clock position. It ran down (at watch repair shop and I have had problems keeping it running. I don't know if I need a watch winder or if they messed it up at the repair shop while they wound manually and runs for a few minutes and stops. TREAT THIS WATCH AS ONE THAT NEEDS WATCH REPAIR. Has bezel that is unidirectional expandable band is good. All links come with watch. Has unscratched sapphire crystal and says it is waterproof to 1,000 feet. I don't trust the watch and has come with it's original high gloss presentation box with the little pillow inside along with the tag and a Steinhart history. Hand are coated with Superluminova RETURN on this item because I am selling it 'AS IS'. It was running great when it went to "Watch Repairs USA" and they kept the watch for two months. Now but it just need a good winding. The watch movement should be fine as it is a Swiss Made Movement according to the "Made in Jura" on the back. Thank you for your perfect feedback and do NOT want to mess that up. Please buy this only if you are a 'gambler', watch repair person or feel lucky. While writing this deal I set up immediately when you pull the crown out to the first catch and wind it but it does not keep going. I've never said this before on eBay but please purchase a really great watch about three months ago but not now and I think the watch repair people may have made it worse.

On Dec-06-13 at 12:21:27 PST, seller added the following information:

200999181024 (item number) IMPORTANT INFORMATION A BIDDER HAS TOLD ME THAT HE HAS HEARD THAT "WATCH REPAIRS USA CENTRE, NEW YORK HAS BEEN RUMORED TO SWITCH MOVEMENTS ON WATCHES. I doubt that this is true but the guy that sent me the watch replaced the Swiss movement out and replace it with a Chinese movement. I believe he meant well and he did not claim first hand knowledge. I seriously doubt that this is possible, I want to mention it. The watch is listed as 'AS IS' - 'NEEDS REPAIR' AND 'NOT RETURNABLE' - I DO NOT want to represent this watch with a 100 percent positive feedback. I only know that I purchased the watch new, sent it in for repair (once) and it does not keep running. It was returned to me because they said they had no dial to replace the broken one. The only watch repair I used was 'Watch Repairs USA'. Please consider this added information before bidding. My bid made previous to me getting this additional information posted.
